

Blue and Green Tinted Glasses

Omni Dallas Convention Center Hotel

Location: Dallas, TX

Products: Pacifica®, Solarban® z50, Solarban® 70XL Glasses

Architect: BOKA Powell Architects; 5GStudio

Glazing Contractor: Goldfinch Brothers, Inc.

Glass Fabricator: JE Berkowitz, LP

Owner/Developer: City of Dallas/Matthews Southwest

Aesthetic Description

Architects have relied on blue and green tinted glasses for decades to give buildings a distinctive look and to reduce heat gain and glare. PPG offers a collection of blue and green tints that can be paired with its exceptional range of advanced low-e and reflective coatings to offer architects more performance and aesthetic options than ever.

In addition to light-green **Solexia®** glass, which has been an industry mainstay since the 1930s, PPG’s nature-inspired color palette includes aqua-blue **Azuria®** glass, emerald-green **Atlantica®** glass, sky-blue **Solarblue®** glass and rich-blue **Pacifica®** glass. Using these tints with reflective **Solarcool®** and subtly-reflective **Vistacool®** glass coatings further multiplies the color selection.

Performance Characteristics

Blue and green tinted glasses are available with **Solarban®** solar control, low-e glasses or combined in an insulating glass unit (IGU) with **Sungate®** passive low-e glasses to fulfill a wide range of performance demands, whether the goal is to maximize light transmittance, increase privacy or improve solar control performance.

Fabrication and Availability

Blue and green tinted glasses, as well as **Sungate®** and **Solarban®** low-e glasses, provide maximum processing flexibility and can be laminated, tempered or heat-strengthened to satisfy increased strength or safety glazing requirements. PPG tinted glass and **Sungate®** glasses are available from hundreds of PPG-qualified glass fabricators in the U.S., Canada and throughout the world. Tinted glasses with **Solarban®** glasses are available through the **PPG Certified Fabricator® Network**.

Additional Resources

Ecological Solutions from PPG™

encompass a number of environmentally sustainable architectural glass products, including uncoated blue and green tinted glasses, as well as those with **Solarcool®**, **Vistacool®**, **Solarban®** and **Sungate®** glass coatings. For more information, or to obtain samples of any PPG glass product, call 888-PPG-IDEA (774-4332) or visit www.ppgideascapes.com.

PPG is the first U.S. float glass manufacturer to have its products recognized by the **Cradle to Cradle Certified™** program, and offers more C2C-certified architectural glasses than any other float glass manufacturer.
