Glass colours represented in this brochure are approximate and reflect the effects of photographic and printing processes.

Capabilities and product offerings are subject to change without notice. For the most up to date information please visit [www.vitrum.ca](http://www.vitrum.ca)

VITRUM™ Glass Group strives to meet all of your glass fabrication needs. For sizes outside of these minimums and maximums please contact one of our highly knowledgeable Customer Services Representatives.

# DecorGlass™

Screen Printed Ceramic Frit

DecorGlass™ Screen Printed Ceramic Frit

the possibilities are endless...

When it comes to creating a dramatic look, DecorGlass™, a screen printed ceramic frit product from Vitrum offers architects and designers a whole new dimension in design possibilities. Vitrum's oversized screen-printing process uses semi-automated machinery to bond nearly any colour or image onto a wide family of glass substrates. This versatile product is available in both standard and custom patterns, you can even design your own, or work with one of your in-house design professionals to create something that is truly one of a kind. With screen printed DecorGlass™ from Vitrum the design possibilities are endless.

Explore vitrum.ca where you create, build and visualize your next creation. With these online tools architects and designers can quickly see the effect of colour, line thickness and coverage for screen printed glass. Don't see what you need today or want to order a sample, call us at 1.888.391.1166 and ask to speak with one of our architectural sales reps. They will be happy to guide you through the design process and provide samples.

# Interactive Design Tools at [Vitrum.ca](http://Vitrum.ca)

Using our on-line screen print simulator you can explore the effect of different DecorGlass™ patterns and colours. Choose from over a dozen geometric and abstract patterns or use our interactive tools to customize standard architectural patterns including, staggered dots, linear dots, lines and gradients.
