

CELEBRATE TWENTY YEARS OF GLASS FABRICATION WITH VITRUM

THURSDAY, JUNE 15TH, 2017

Vitrum Glass Group personally invites you to join us in celebrating twenty years of glass fabrication. This exclusive event is open to customers of Vitrum and members of the architectural community, including architects, spec-writers and interior designers.

EDUCATIONAL WORKSHOPS 2PM

Choose one of four AIBC accredited workshops lead by industry professionals. Featuring highly focused educational content suitable for both the architectural and glazing community. Space is limited so please register early.

How to Build a Glass House

Presenter: Leonard Pianalto, RJC
Look beyond glass as a building envelope material and explore its use as a structural component including glass floors, beams, bearing walls, point supports, shear walls and roofs.
OR

Glass Production, Processing and Performance

Presenter: Andre Kenstowicz, Vitro Glass
An introduction to the different types of glasses that are available, with specific emphasis on coated glasses and their impact on energy and environmental performance. Additional topics include: thermal breakage, wind load, sound attenuation and size limitations.
OR

Glass Selection for Facades: Rendering to Reality

Presenter: Steve Thomas, Guardian
This program discusses the foundations of the glass selection process and explores the aesthetic options available to meet project design and performance requirements, with a special focus on performance coatings and custom glass fabrication.
OR

Storefront vs Curtain Wall

Presenter: Randy Smith CTR, Apex Facade Systems
What is a storefront system? Where is it best used? What is a curtainwall? Where is it best used? In this seminar participants will explore the applications, uses and limitations for two of the most common glazing systems.

TOUR 4PM

Join us for an in-depth behind the scenes tour of western Canada's largest glass fabricator, while earning two AIBC Core LUs. You will have the opportunity to see the products you specify being created right in front of you. Tour highlights will include: Insulated Glass Units, Tempering, Bent Glass, Lamination, Custom Glass Fabrication, Silk-Screened and Spandrel Glass. To ensure a complete Fenestration experience, the tour will continue to Apex Aluminum Extrusions, BC's only aluminum extruder, where you will see aluminum being extruded into architectural products, followed by fabrication and finishing.

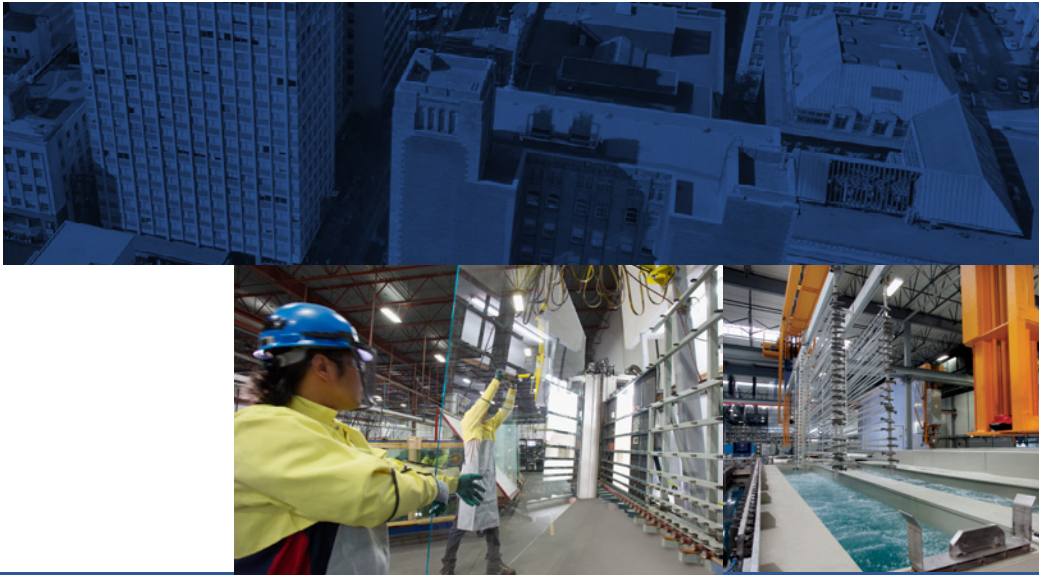

Vitrum Glass Group is proud to be a certified educational provider of the AIBC.

Earn up to 3 Core Learning Units in one afternoon!

20 YEAR CELEBRATION 6PM

We invite you to join us after the tour to celebrate Vitrum's twenty years of glass fabrication with ROCK IN THE PARKING LOT. Featuring live music, dinner, wines from around the world, local craft beers and highballs. This will be a great networking opportunity and a chance to meet members of the architectural and building industry.

Vitrum Glass Group is located in Langley five minutes north off the 200 St Exit on Hwy 1. Making it quick and easily accessible from all areas of the Lower Mainland.
