

Say goodbye
to the utilitarian
chalkboard, say no
to the institutional
whiteboard and
start designing with
a stylish glass
marker board from
Vitrum Glass Group.

DecorCoat™ Glass
Marker Boards

Make your presentations memorable and stylish with a **DecorCoat™ Glass Marker Board**. The glass provides a smooth, easily writable surface, and the optional magnetic backing makes your glass marker board a centerpiece for any presentation. This low maintenance, durable and abrasion-resistant surface provides the perfect solution for heavy use commercial applications and unique decorative installations alike.

The whiteboard that isn't white

DecorCoat™, a back painted glass solution from Vitrum, is created by roll-coating an environmentally friendly water-based paint onto the unexposed surface of Ultra-Clear Starphire glass, and offers the whitest white on the market.

Leave Nothing Behind

You can be confident your DecorCoat™ Glass Marker Boards will look sophisticated and professional, with no ghosting or staining, no matter its age. Easily erase your text, scribble or scrawl, with the swipe of a hand or with regular glass cleaning supplies. Let your creativity flow!

Multifunctional Practicality

Office managers, architects, doctors, teachers, and other professionals will all enjoy the advantages of a DecorCoat™ Glass Marker Board. They are ideal for:

- Conference rooms
- Classrooms
- Cubicle partitions
- Office Walls
- Calendars
- Hospital Charts

Magnetic Glass

When paired with the magnetic backing, the glass becomes a magnetic marker board, allowing users to attach notices as well as write directly on the board with dry erase markers. The galvanized steel is inset from the glass edge ensuring it is hidden from view.

The installation possibilities are endless.

Supply your own mounting hardware or work with our design team to source and supply a wide variety of mounting options. DecorCoat™ Glass Marker Boards are available in sizes up to 102" x 200", and up to 80" x 140" for DecorCoat™ Glass Marker Boards with Magnetic Backing.
